

Annual Action Plan 2025

**KRISHI VIGYAN KENDRA
KENDRAPARA, JAJANGA**

REVISED PROFORMA FOR ACTION PLAN 2025

1. Name of the KVK: KVK, Kendrapara

Address	Telephone	E mail
At: Jajang P.O: Kapaleswar Dist: Kendrapara Odisha - 754250	06727-297554	kvk.kendrapara@ouat.ac.in

2. Name of host organization:

Address	Telephone		E mail
	Office	FAX	
Odisha University of Agriculture and Technology Bhubaneswar - 751003	0674 - 2397970/ 2397818/ 2397719/ 2397669 / 2397719 / 2397919 / 2397868	0674 - 2397700	vc@ouat.ac.in vcouat@gmail.com

3.Training programme to be organized (April 2025 to March 2026)

(a) Farmers and farmwomen

Thematic area	Title of Training	No.	Duration (days)	Venue On/Off	Tentative Date	No. of Participants									
						SC		ST		Other		Total			
						M	F	M	F	M	F	M	F	T	
ICM	Raising mat nursery and nursery management for mechanical transplanting of rice	2	1	Tilanga, Napanga	25.06.2025 & 02.07.2025										60
IWM	Integrated crop management in Jute	1	1	Jampara	03.07.2025										30
Organic production	Organic farming in rice	1	1	Bagapatia	17.07.2025										30
IWM	Integrated weed management in rice	1	1	Nagaripada	30.07.2025										30
Soil health management	Soil health management in rice based cropping system	1	1	Nial (Aul)	13.08.2025										30
PHM	Improved retting technology of jute	1	1	Dashipur	23.09.2025										30
Crop Residue Management	Crop residue management and recycling of agro-waste	1	1	Patkura	08.10.2025										30
INM	Integrated crop management in mustard	1	1	Bedari	24.10.2025										30
IWM	Weed management in groundnut	1	1	Janrabarimula	07.11.2025										30
INM	Integrated nutrient management in greengram and blackgram	1	2	On campus	27.11.2025-28.11.2025										30
Climate resilient agriculture	Climate resilient practices in greengram and blackgram	1	1	Shyama-sundarpur	09.01.2026										30
INM	Integrated nutrient management in Sunflower	1	1	Sahabajpur	17.01.2026										30
ICM	Best management practices in millets	1	2	On campus	08.01.2025-09.01.2025										30
ICM	ICM of drill seeded greengram	1	1	Balia	07.02.2026										30
Layout and Management of Orchards	Crop planning and management in Arecanut plantation	1	2	Gajapitha	09.07.2025 - 10.07.2025										30

Thematic area	Title of Training	No.	Duration (days)	Venue On/Off	Tentative Date	No. of Participants									
						SC		ST		Other		Total			
						M	F	M	F	M	F	M	F	T	
Management of young plants/ orchards	Canopy management in guava for enhancing productivity	1	2	On campus	16.07.2025-17.07.2025										30
QPM production	Solanaceous vegetable grafting techniques	1	2	On campus	13.08.2025-14.08.2025										30
Production technology	Perennial flower cultivation for income generation	1	1	Sahabajpur	10.12.2025 - 11.12.2025										30
Climate resilient horticulture	Climate resilient zero tillage potato cultivation	2	1	Kasoti, Pahana	12.11.2025 & 21.11.2025										60
Integrated farming system	Vegetable based integrated farming system modules for coastal areas	1	1	Osangara	06.08.2025 - 07.08.2025										30
Protective cultivation	Cropping sequences of horticultural crops under hi-tech protected structures	1	1	Nadiabari	19.11.2025										30
Production and Management technology	Fruit drop management in mango	1	1	Rajkanika	07.01.2026										30
Climate resilient agriculture	Climate resilient practices in vegetable farming	1	1	Bilabalarampur	08.10.2025										30
Value Addition	Value added product preparation from horticultural crops	1	2	On campus	11.02.2026-12.02.2026										30
Natural farming	Natural farming practices for vegetable crop	1	1	Bijayanagar	17.09.2025										30
Production and Management technology	Low input intensive tuber crop production technology	1	1	Kasoti	18.02.2026										30
IPDM	Integrated management of major insect and disease pests of rice	1	2	Poipata	25.06.2025-26.06.2025										30
IPDM	Management of diseases and insect pests of jute	1	1	Raghunathpur	01.07.2025										30

Thematic area	Title of Training	No.	Duration (days)	Venue On/Off	Tentative Date	No. of Participants								
						SC		ST		Other		Total		
						M	F	M	F	M	F	M	F	T
IPDM	Pests of chilli and brinjal, and their management	1	1	Tamalasasan	04.07.2025									30
IPM	Bio-intensive pest management in okra	1	1	Kharidasahi	08.07.2025									30
Organic farming	Ecological pest management in horticultural crops	1	1	Pahana	06.08.2025									30
IPM	Fruit fly management in cucurbits	1	1	Bilabalarampur	20.08.2025									30
IPM	Management of major insect pests in coconut	1	1	Golerhat	19.09.2025									30
IPM	Management of stored grain pests	1	1	Khulari	06.10.2025									30
Climate resilient agriculture	Emerging pests of vegetable crops under changing climate and their management	1	2	On campus	30.10.2025-31.10.2025									30
IPM	Calibration, spraying techniques of pesticides and safety measures	1	2	On campus	12.11.2025-13.11.2025									30
Climate resilient agriculture	Changing behaviour of pests in pulses and their management	1	1	Balipatna	17.12.2025									30
Bio-control of pests and diseases	Biological pest management strategies in vegetable crops	1	1	Kalapada	30.12.2025									30
Composite fish culture	Stocking and post-stockling pond management practices for IMC	1	1	Sahabajpur	23.07.2025									30
Fry production	Nursery pond management for carp fry production	1	1	Koro	05.08.2025									30
Composite culture	Composite carp culture for enhancing pond carrying capacity	1	1	Nilakanthapur	20.08.2025									30
Feeding management	Feed management in carp culture	1	2	On campus	03.09.2025-04.09.2025									30
Species diversification	Short term culture of minor carps with IMC for higher productivity	1	2	Ghigidia	11.09.2025-12.09.2025									30
Composite culture	Multiple stocking and multiple harvesting method of pisciculture	1	2	On campus	09.10.2025-10.10.2025									30

Thematic area	Title of Training	No.	Duration (days)	Venue On/Off	Tentative Date	No. of Participants									
						SC		ST		Other		Total			
						M	F	M	F	M	F	M	F	T	
Biofloc fish production	Species diversity and management in biofloc fish farming	1	1	Pattamundai	15.10.2025										30
Seed production	Production technology for fingerling and yearling production	1	2	Ayeba	06.11.2025 - 07.11.2025										30
BW Shrimp farming	Water quality and feeding management for brackish water Vannamei farming	1	1	Suniti	12.11.2025										30
Disease management	Fish diseases and their management	1	1	Jamboo	26.11.2025										30
Integrated Farming	Pond based integrated farming system	1	2	Mulabasanta	03.12.2025-04.12.2025										30
Ornamental Fisheries	Ornamental fish culture for entrepreneurship development through SHGs	1	1	Gandakula	07.01.2026										30
Waste management	Compost making process utilizing kitchen waste, spent mushroom straw etc.	1	1	Bilabalarampur	28.06.2025										30
Management of problematic soil	Management of saline soil	1	1	Bagapatia	08.07.2025										30
INM	Nutrient management in rice	1	1	Osongara	14.08.2025										30
Soil health management	Methods of soil sampling for soil testing	1	1	Berhampur	26.11.2025										30
Production and use of organic inputs	Use of decomposers for crop residue management	1	1	Nagaripada	18.12.2025										30
Poultry feed	Azola cultivation and its use as feed for poultry birds	1	1	Kakharuni	09.01.2026										30

(b) Rural youths

Thematic area	Title of Training	No.	Duration (days)	Venue On/Off	Tentative Date	No. of Participants								
						SC		ST		Other		Total		
						M	F	M	F	M	F	M	F	T
Natural farming	Natural farming for sustainability and profitability in agri-food system through FPOs	1	5	On	15.09.2025 - 19.09.2025									30
Farm mechanization	Commercial custom hiring centers on farm machineries	1	5	On	10.11.2025 - 14.12.2025									30
QPM production	Advanced technologies for QPM production in horticultural crops	1	5	On	14.10.2025 - 18.10.2025									30
Value Addition	Value additions in fruits and vegetables for development of women entrepreneurship	1	5	On	13.01.2026 - 17.01.2026									30
Organic farming	Entrepreneurship development on bio-input resource production	1	3	On	28.10.2025 - 30.10.2025									30
Bee keeping	Bee keeping for self-reliant agriculture	1	5	On	08.12.2025 - 12.12.2025									30
Ornamental Fisheries	Aquarium fabrication and ornamental fish production (WSHG/PG)	1	4	On	23.09.2025 - 26.09.2025									20
Fish seed production	Stunted fingerlings and yearling production for aqua-preneurship	1	4	On	06.02.2026 - 09.02.2026									20
Production and use of organic inputs	Vermicompost and vermiculture production	1	5	On	15.12.2025- 19.12.2025									30

(c) Extension functionaries

Thrust area/ Thematic area	Title of Training	No.	Duration (days)	Venue On/Off	Tentative Date	No. of Participants								
						SC		ST		Other		Total		
						M	F	M	F	M	F	M	F	T
Climate Resilient Agriculture	Climate resilient agriculture practices for coastal agriculture	1	1	On	26.12.2025									30
Cropping system	Advances in crop management technology for rice based cropping systems	1	1	On	20.11.2025									30
Protected cultivation technology	Round the year QPM production in hi-tech nursery	1	1	On	13.11.2025									30
Rejuvenation of old orchards	Rejuvenation of old senile mango orchard	1	1	On	23.10.2025									30
IPM	Recent advances in IPM technology for major pests in rice	1	1	On	17.09.2025									30
IPM	Advances in pesticide management	1	1	On	09.11.2025									30
Disease management	Recent advances in fish health management	1	1	On	30.12.2025									20
Biofloc fish production	Species diversification and round the year utilization of biofloc tanks	1	1	On	17.01.2026									20

Abstract of Training: Consolidated table (ON and OFF Campus)

(a) Farmers and Farm women

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST					
		M	F	T	M	F	T	M	F	T	M	F	T
I. Crop Production													
Weed Management	4												120
Resource Conservation Technologies	1												30
Cropping Systems													
Crop Diversification													
Integrated Farming													
Water management													
Seed production													
Nursery management													
Integrated Crop Management	4												120
Fodder production													
Production of organic inputs	1												30
Post harvest management	1												30
TOTAL	11												330
II. Horticulture													
a) Vegetable Crops													
Integrated nutrient management													
Water management													
Enterprise development													
Skill development													
Yield increment													
Production of low volume and high value crops													
Off-season vegetables													
Nursery raising	1												30
Exotic vegetables like Broccoli													
Export potential vegetables													
Grading and standardization													
Protective cultivation (Green Houses, Shade Net etc.)	1												30
Others, if any (Cultivation of Vegetable)	5												150
TOTAL	7												210
b) Fruits													
Training and Pruning													
Layout and Management of Orchards	1												30
Cultivation of Fruit	1												30

Thematic Area	No. of Courses	No. of Participants									Grand Total			
		Other			SC			ST						
		M	F	T	M	F	T	M	F	T	M	F	T	
Management of young plants/orchards	1													30
Rejuvenation of old orchards														
Export potential fruits														
Micro irrigation systems of orchards														
Plant propagation techniques														
Others, if any (INM)														
TOTAL	3													90
c) Ornamental Plants														
Nursery Management														
Management of potted plants														
Export potential of ornamental plants														
Propagation techniques of Ornamental Plants														
Others, if any	1													30
TOTAL	1													30
d) Plantation crops														
Production and Management technology														
Processing and value addition														
Others, if any														
TOTAL														
e) Tuber crops														
Production and Management technology	1													30
Processing and value addition	1													30
Others, if any														
TOTAL	2													60
f) Spices														
Production and Management technology														
Processing and value addition														
Others, if any														
TOTAL														
g) Medicinal and Aromatic Plants														
Nursery management														
Production and management technology														
Post harvest technology and value addition														

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST					
		M	F	T	M	F	T	M	F	T	M	F	T
Others, if any													
TOTAL													
III. Soil Health and Fertility Management													
Soil fertility management	2												60
Soil and Water Conservation													
Integrated Nutrient Management	4												120
Production and use of organic inputs	2												60
Management of Problematic soils	1												30
Micro nutrient deficiency in crops													
Nutrient Use Efficiency													
Soil and Water Testing													
Others, if any													
TOTAL	9												270
IV. Livestock Production and Management													
Dairy Management													
Poultry Management													
Piggery Management													
Rabbit Management													
Disease Management													
Feed management	2												60
Production of quality animal products													
Others, if any (Goat farming)													
TOTAL	2												60
V. Home Science/ Women empowerment													
Household food security by kitchen gardening and nutrition gardening													
Design and development of low/minimum cost diet													
Designing and development for high nutrient efficiency diet													
Minimization of nutrient loss in processing													
Gender mainstreaming through SHGs													

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST					
		M	F	T	M	F	T	M	F	T	M	F	T
Storage loss minimization techniques													
Enterprise development													
Value addition													
Income generation activities for empowerment of rural Women													
Location specific drudgery reduction technologies													
Rural Crafts													
Capacity building													
Women and child care													
Others, if any													
TOTAL													
VI. Agril. Engineering													
Installation and maintenance of micro irrigation systems													
Use of Plastics in farming practices													
Production of small tools and implements													
Repair and maintenance of farm machinery and implements													
Small scale processing and value addition													
Post Harvest Technology													
Others, if any													
TOTAL													
VII. Plant Protection													
Integrated Pest Management	9												270
Integrated Disease Management	1												30
Bio-control of pests and diseases	1												30
Production of bio control agents and bio pesticides	1												30
Others, if any													
TOTAL	12												360
VIII. Fisheries													
Integrated fish farming	1												30
Carp breeding and hatchery management													
Carp fry and fingerling rearing	2												60

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST			M	F	T
		M	F	T	M	F	T	M	F	T			
Composite fish culture & fish disease	6												180
Fish feed preparation & its application to fish pond, like nursery, rearing & stocking pond	1												30
Hatchery management and culture of freshwater prawn													
Breeding and culture of ornamental fishes	1												30
Portable plastic carp hatchery													
Pen culture of fish and prawn													
Shrimp farming	1												30
Edible oyster farming													
Pearl culture													
Fish processing and value addition													
Others, if any													
TOTAL	12												360
IX. Production of Inputs at site													
Seed Production													
Planting material production													
Bio-agents production													
Bio-pesticides production													
Bio-fertilizer production													
Vermi-compost production													
Organic manures production													
Production of fry and fingerlings													
Production of Bee-colonies and wax sheets													
Small tools and implements													
Production of livestock feed and fodder													
Production of Fish feed													
Others, if any													
TOTAL													
X. Capacity Building and Group Dynamics													
Leadership development													
Group dynamics													
Formation and Management of SHGs													

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST					
		M	F	T	M	F	T	M	F	T	M	F	T
Mobilization of social capital													
Entrepreneurial development of farmers/youths													
WTO and IPR issues													
Others, if any													
TOTAL													
XI Agro-forestry													
Production technologies													
Nursery management													
Integrated Farming Systems													
TOTAL													
XII. Others (Pl. Specify)													
TOTAL	57												1710

(b) Rural youth

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST					
		M	F	T	M	F	T	M	F	T	M	F	T
Mushroom Production													
Bee-keeping	1												30
Integrated farming													
Seed production													
Production of organic inputs	2												30
Planting material production													
Vermi-culture	1												30
Sericulture													
Protected cultivation of vegetable crops													
Commercial fruit production													
Repair and maintenance of farm machinery and implements													
Nursery Management of Horticulture crops	1												30
Training and pruning of orchards													
Value addition	1												30
Production of quality animal products													
Dairying													
Sheep and goat rearing													
Quail farming													

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST					
		M	F	T	M	F	T	M	F	T	M	F	T
Piggery													
Rabbit farming													
Poultry production													
Ornamental fisheries	1												20
Para vets													
Para extension workers													
Composite fish culture													
Freshwater prawn culture													
Shrimp farming													
Pearl culture													
Cold water fisheries													
Fish harvest and processing technology													
Fry and fingerling rearing	1												20
Small scale processing													
Post Harvest Technology													
Tailoring and Stitching													
Rural Crafts													
Enterprise development													
Farm mechanization	1												30
TOTAL	9												250

(c) Extension functionaries

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST					
		M	F	T	M	F	T	M	F	T	M	F	T
Productivity enhancement in field crops													
Integrated Pest Management	2												60
Integrated Nutrient management													
Rejuvenation of old orchards	1												30
Value addition													
Protected cultivation technology	1												30
Formation and Management of SHGs													
Group Dynamics and farmers organization													
Information networking among farmers													

Thematic Area	No. of Courses	No. of Participants									Grand Total		
		Other			SC			ST					
		M	F	T	M	F	T	M	F	T	M	F	T
Capacity building for ICT application													
Care and maintenance of farm machinery and implements													
WTO and IPR issues													
Management in farm animals													
Livestock feed and fodder production													
Household food security													
Women and Child care													
Low cost and nutrient efficient diet designing													
Production and use of organic inputs													
Gender mainstreaming through SHGs													
Crop intensification	1												30
Fish diseases and its management	1												20
Biofloc fish production technique	1												20
Climate resilient agriculture	1												30
Natural Farming													
TOTAL	8												220

FLD 1: Demonstration on ICM for local red rice under saline soil condition (24FAG09K)																
Crop: Rice																
Thrust Area: ICM for local rice under saline soil																
Thematic Area: ICM																
Season: Kharif 2025																
Farming Situation: Rainfed medium land																
Sl. No.	Crop & variety / Enterprises	Proposed Area (ha)/ Unit (No.)	Technology package for demonstration	Parameter (Data) in relation to technology demonstrated	Cost of Cultivation (Rs.)			No. of farmers / demonstration								
					Name of Inputs	Demo	Local	SC		ST		Other		Total		
								M	F	M	F	M	F	M	F	T
1	Rice	2 ha	Red rice varieties Panialna and Bhaluki, dhaincha green manuring, FYM @2t/ha, jeevamrut @200L/application – 5 times	No. of effective tillers/m ² , Filled grain /panicle, Test weight, Yield & Economics	Dhaincha seed, FYM, Jeevamruta											10

Extension and Training activities under FLD:

Activity	Title of Activity	No.	Clientele	Duration (days)	Venue On/Off	No. of Participants									
						SC		ST		Other		Total			
						M	F	M	F	M	F	M	F	T	
Training	Saline soil management	1	F&FW	1	Off										30
Field Day	ICM in local rice under saline soil	1	F&FW	1	Off										50

FLD 2: Demonstration on indigenous aromatic rice var. Kalikati (25FAG5K)																
Crop: Rice																
Thrust Area: Aromatic rice cultivation																
Thematic Area: Varietal																
Season: Kharif 2025																
Farming Situation: Rainfed medium land																
Sl. No.	Crop & variety / Enterprises	Proposed Area (ha)/ Unit (No.)	Technology package for demonstration	Parameter (Data) in relation to technology demonstrated	Cost of Cultivation (Rs.)			No. of farmers / demonstration								
					Name of Inputs	Demo	Local	SC		ST		Other		Total		
								M	F	M	F	M	F	M	F	T
1	Rice	2 ha	Cultivation of aromatic rice var. Kalikati	No. of effective tillers/m ² , Filled grain /panicle, Test weight, Yield & Economics	Seeds											15

Extension and Training activities under FLD:

Activity	Title of Activity	No.	Clientele	Duration (days)	Venue On/Off	No. of Participants								
						SC		ST		Other		Total		
						M	F	M	F	M	F	M	F	T
Training	Organic aromatic rice cultivation	1	F&FW	1	Off									30
Field Day	Aromatic rice cultivation Kalikati	1	F&FW	1	Off									50

FLD 3: Demonstration on customized mechanical transplanting under irrigated rice-pulse cropping system (25FAG9K)

Crop: Rice

Thrust Area: ICM for transplanted in rice

Thematic Area: Fram Mechanization

Season: Kharif 2025

Farming Situation: Rainfed medium land

Sl. No.	Crop & variety / Enterprises	Proposed Area (ha)/ Unit (No.)	Technology package for demonstration	Parameter (Data) in relation to technology demonstrated	Cost of Cultivation (Rs.)			No. of farmers / demonstration									
					Name of Inputs	Demo	Local	SC		ST		Other		Total			
								M	F	M	F	M	F	M	F	T	
1	Rice	8 ha	Use of four rowed rice walk behind transplanter Customised system: identification of rural youth as entrepreneur (service provider) for promotion of mechanical transplanting, selection of a cluster of 20 acres, raising of community nursery, transplanting by SP on a customized approach.	Labour saving, Cost Saving, Yield & Economics	Transplanter cost, Mat nursery tray												30

Extension and Training activities under FLD:

Activity	Title of Activity	No.	Clientele	Duration (days)	Venue On/Off	No. of Participants									
						SC		ST		Other		Total			
						M	F	M	F	M	F	M	F	T	
Training	Maintenance and operation of rice transplanter	1	F&FW	1	Off										30
Field Day	Mechanical Transplanting in rice	1	F&FW	1	Off										50

FLD 4: Demonstration on integrated crop management in sunflower (25FAG24R)																
Crop: Sunflower																
Thrust Area: Integrated crop management in Sunflower																
Thematic Area: ICM																
Season: Rabi 2025-26																
Farming Situation: Rice-oilseed, Irrigated, Medium land																
Sl. No.	Crop & variety / Enterprises	Proposed Area (ha)/ Unit (No.)	Technology package for demonstration	Parameter (Data) in relation to technology demonstrated	Cost of Cultivation (Rs.)			No. of farmers / demonstration								
					Name of Inputs	Demo	Local	SC		ST		Other		Total		
								M	F	M	F	M	F	M	F	T
1	Sunflower	2 ha	Cultivation of sunflower hybrid KBSH 53 with application of STBF + Sulpher @30kg /ha and Boron 1kg/ha + Application of Trichoderma @ @4 kg/100 kg FYM. Pre emergence application of Pendimethalin @1kg/ha for weed management.	Weed count/m ² , head diameter, No. of filled grain per head Yield & Economics	Seed, Fertilizers Herbicides											10

Extension and Training activities under FLD:

Activity	Title of Activity	No.	Clientele	Duration (days)	Venue On/Off	No. of Participants									
						SC		ST		Other		Total			
						M	F	M	F	M	F	M	F	T	
Training	ICM in Sunflower	1	F&FW	1	Off										30
Field Day	ICM in Sunflower	1	F&FW	1	Off										50

FLD 5: Demonstration of branch bending technology in guava (24FHO05(K/R))**Crop:** Guava**Thrust Area:** Crop Regulation**Thematic Area:** Management of young plants**Season:** Kharif 2025**Farming Situation:** Orchard

Sl. No.	Crop & variety / Enterprises	Proposed Area (ha)/ Unit (No.)	Technology package for demonstration	Parameter (Data) in relation to technology demonstrated	Cost of Cultivation (Rs.)			No. of farmers / demonstration										
					Name of Inputs	Demo	Local	SC		ST		Other		Total				
								M	F	M	F	M	F	M	F	T		
1	Guava	1	In the month of June, branch bending to done by retaining 10-15 pairs of leaves at apex and removing all the leaves, flowers and developing fruits manually. Branches were bent down by applying pressure gradually from proximal to distal end of branch. They are to be kept at bent position by tying the tip of branches to the wooden pegs fixed on the ground with the help of rope till flushing completes, for 40-45 days.	Days of initiation of buds, Av. Nos. of buds emerged, Converted to flowers, Av. Nos. of fruit/plant	Jute rope, Secateur, Budding and grafting knife													10

Extension and Training activities under FLD:

Activity	Title of Activity	No.	Clientele	Duration (days)	Venue On/Off	No. of Participants								
						SC		ST		Other		Total		
						M	F	M	F	M	F	M	F	T
Training	Different crop regulation techniques of Guava for increasing productivity	1	F&FW	1	Off									30
Field Day	Demonstration of bending technology in guava for increasing productivity	1	F&FW	1	Off									50

FLD 6: Demonstration on tuberose for horticultural crop diversification (24FHO16K)																	
Crop: Tuberose																	
Thrust Area: Crop diversification																	
Thematic Area: Production technology																	
Season: Kharif -2025																	
Farming Situation: Irrigated, Upland, Vegetable- Vegetable

27.	Mahila Kisan Diwas	1										30
28.	Any Other (Specify)											
	Total	74										2305

7. Revolving Fund (in Rs.)

Opening balance of 2025-26 (As on 01.04.2025)	Amount proposed to be invested during 2025-2026	Expected Return
7,53,035		

8. Expected fund from other sources and its proposed utilization

Project	Source	Amount to be received (Rs. in lakh)

9. On-farm trials to be conducted

OFT: 1		
i	Season	: Round the year
ii	Title of the OFT (24OAG08K/R)	: Refinement of millet integrated rice-based cropping system
iii	Thematic Area	: Crop diversification
iv	Problem diagnosed	: Low income from cropping farming system
v	Production system	: Rice-pulse
vi	Micro farming system	: Irrigated, Medium land
vii	Technology for Testing	: Millet integration rice -based cropping system
viii	Existing Practice	: Rice pulse system
ix	Objective(s)	: To enhance yield of the system
x	Treatments	:
	Farmers Practice (FP)	: Rice-blackgram/ greengram
	Technology option-I (TO-I)	: Rice-finger millet
	Technology option-II (TO-II)	: Early rice-finger millet-greengram
xi	Critical Inputs	: Seeds
xii	Unit Size	: 0.15 ha
xiii	No of Replications	: 7
xiv	Unit Cost (₹)	: 800
xv	Total Cost (₹)	: 5,600
xvi	Monitoring Indicator	: System Yield(q/ha) Economics
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	: OUAT 2021

OFT: 2			
i	Season	:	Round the year
ii	Title of the OFT (24OAG10K/R)	:	Assessment of suitable jute- based cropping systems for higher profitability
iii	Thematic Area	:	Crop diversification
iv	Problem diagnosed	:	Low income from existing cropping farming system
v	Production system	:	Jute-rice
vi	Micro farming system	:	Irrigated, Medium land
vii	Technology for Testing	:	Jute- based cropping systems
viii	Existing Practice	:	Rice pulse system
ix	Objective(s)	:	To enhance yield of the system
x	Treatments	:	
	Farmers Practice (FP)	:	Jute-rice/ blackgram
	Technology option-I (TO-I)	:	Jute- groundnut
	Technology option-II (TO-II)	:	Jute-rice-greengram
	Technology option-III (TO-III)	:	Jute-vegetable (gardenpea)
xi	Critical Inputs	:	Seeds
xii	Unit Size	:	0.15 ha
xiii	No of Replications	:	7
xiv	Unit Cost (₹)	:	750
xv	Total Cost (₹)	:	5,250
xvi	Monitoring Indicator	:	System Yield(q/ha) Economics
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	:	CRIJAF, 2019

OFT: 3			
i	Season	:	Kharif 2025
ii	Title of the OFT (25OAG12KRS)	:	Assessment of weed management practices in brinjal
iii	Thematic Area	:	Weed management
iv	Problem diagnosed	:	Low yield and income from Brinjal due to higher weed infestation
v	Production system	:	Vegetable-vegetable
vi	Micro farming system	:	Irrigated, Upland
vii	Technology for Testing	:	Weed management in Brinjal
viii	Existing Practice	:	Manual weeding
ix	Objective(s)	:	To enhance yield of the crop through weed management
x	Treatments	:	
	Farmers Practice (FP)	:	Manual weeding
	Technology option-I (TO-I)	:	Use of Power weeder (25 DAT & 45 DAT)
	Technology option-II (TO-II)	:	Application of Pendimethalin @ 1.5 kg /ha at 2 DAT followed by application of quizalofop ethyl 0.75 kg /ha 40 DAT
xi	Critical Inputs	:	Herbicides
xii	Unit Size	:	0.15 ha
xiii	No of Replications	:	7
xiv	Unit Cost (₹)	:	1200
xv	Total Cost (₹)	:	8400
xvi	Monitoring Indicator	:	Yield(q/ha) Economics, WCE (%), Saving in labour and cost of cultivation
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	:	AAU, ASAM, 2024 UAS, Dharwad, 2023

OFT: 4		
i	Season	: Rabi 2025-26
ii	Title of the OFT (25OAG11KRS)	: Assessment of natural farming practices in vegetable crops
iii	Thematic Area	: Natural farming practices
iv	Problem diagnosed	: Heavy use of agrochemicals leading to deterioration of soil and environment health; rising cost of cultivation
v	Production system	: Vegetable-vegetable
vi	Micro farming system	: Irrigated, Upland
vii	Technology for Testing	: Natural farming practices
viii	Existing Practice	: Conventional chemical framing practices
ix	Objective(s)	: To enhance soil and environmental health and reduce cost of cultivation
x	Treatments	:
	Farmers Practice (FP)	: Okra sole crop with application of chemical fertilizer and need based plant protection chemicals
	Technology option-I (TO-I)	: Okra + Cowpea (1:1) + Seeds treatment with beejamrita 200 ml/kg seeds. Application of Ghanjeevamrit 400 kg/acre 2 times 200 kg during sowing and 45 DAS (Placements)+ Application of Dhurvajeevamrit Soil application 3 times @200 l each at 30, 60 and 90 DAS and foliar spray 4 times at 15,45,75, and 105 DAS @ 10% spray. Growing of trap crops marigold as border crop. Spraying Neemastra and Agniastra @ 5 l in 200 l of water at 10 days interval alternatively. Spraying of sour butter milk @ 6L in 100 L of water on incidence of diseases. (AP Natural farming model)
	Technology option-II (TO-II)	: Okra + Cluster bean (1:1) + Green manuring through Dhaincha. Seed treatment with beejamrita 200 ml/kg of seeds for 7 hrs. Application of FYM 200 kg/acre + Ghanjeevamrit 25 kg/acre during sowing + Application of jeevamrit Soil application 6 times @200 l each at 15 days interval after sowing along with irrigation water. 10 % desi cow urine spray if leaf turns yellow. 6 foliar spray of Jeevamrit @ 5 % at 20 days interval from sowing of main crop growing of trap crops marigold as border crop. Spraying Neemastra and Bhrahamstra @ 3 l in 100 l of water at 10 days interval alternatively. Spraying of sour butter milk @ 3l in 100 l of water on incidence of diseases. (Gujrat Natural farming)
xi	Critical Inputs	: Seeds, natural farming preparation materials
xii	Unit Size	: 0.15 ha
xiii	No of Replications	: 7
xiv	Unit Cost (₹)	: 1500
xv	Total Cost (₹)	: 10500
xvi	Monitoring Indicator	: Yield(q/ha) Economics, Soil organic carbon, microbial study
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	: MANAGE, 2025

OFT: 5			
i	Season	:	Kharif -2025
ii	Title of the OFT (24OH017K)	:	Assessment of elephant foot yam and turmeric as intercroops in arecanut plantation
iii	Thematic Area	:	Production techniques
iv	Problem diagnosed	:	No inter space utilization in Arecanut plantation leading to weeds acting collateral host for pest and diseases
v	Production system	:	Arecanut plantation
vi	Micro farming system	:	Rainfed, Upland
vii	Technology for Testing	:	Elephant foot yam and turmeric
viii	Existing Practice	:	Growing of sole arecanut
ix	Objective(s)	:	To assess the additional return during gestation period of arecanut crop
x	Treatments	:	
	Farmers Practice (FP)	:	Growing of sole arecanut
	Technology option-I (TO-I)	:	Cultivation of Elephant foot yam Var. Gajendra
	Technology option-II (TO-II)	:	Cultivation of turmeric Var. Rashmi
xi	Critical Inputs	:	Planting material
xii	Unit Size	:	0.06 ha
xiii	No of Replications	:	7
xiv	Unit Cost (₹)	:	2,000
xv	Total Cost (₹)	:	16,000
xvi	Monitoring Indicator	:	Av. quantity (in kg) of rhizomes and tubers / m ² , Biomass produced/ m ²
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	:	CPCRI-2014

OFT: 6			
i	Season	:	Rabi-2025-26
ii	Title of the OFT (25OH002(K/R))	:	Assessment of zero tillage potato cultivation under coastal agriculture
iii	Thematic Area	:	Production technology
iv	Problem diagnosed	:	Heavy soil limits potato cultivation, high cost of production and low profitability
v	Production system	:	Vegetable –Vegetable
vi	Micro farming system	:	Medium land irrigated
vii	Technology for Testing	:	Zero tillage potato cultivation
viii	Existing Practice	:	Conventional potato farming
ix	Objective(s)	:	To assess the farmer friendliness, cost effectiveness & yield comparison vis-a-vis to conventional practice
x	Treatments	:	
	Farmers Practice (FP)	:	Planting of potato under conventional tillage practice
	Technology option-I (TO-I)	:	Planting of potato tuber at a spacing of 60 x 20 cm with 20 t/ha FYM and covering the seed tuber with 20 cm paddy straw
	Technology option-II (TO-II)	:	Planting of potato tuber in lines on untilled soil, mulching with 20 cm thick straw mulch, fertilizer recommendation as per RDF
xi	Critical Inputs	:	Planting material, straw, FYM
xii	Unit Size	:	0.4 ha
xiii	No of Replications	:	7
xiv	Unit Cost (₹)	:	2,200
xv	Total Cost (₹)	:	15,400
xvi	Monitoring Indicator	:	Days to tuber initiation, crop duration, Nos. of tubers / plant, Av. Tuber wt., Yield/ ha, saving in cost of cultivation, Economics
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	:	TO1: OUAT 2024, TO2: CIP-2024

OFT: 7			
i	Season	:	Kharif 2025
ii	Title of the OFT (24OPP01K)	:	Assessment on YSB and Leaf folder management practices in rice
iii	Thematic Area	:	Pest management
iv	Problem diagnosed	:	Low yield due to heavy infestation of yellow stem borer and leaf folder as regular pest in rice
v	Production system	:	Rice- pulse cropping system
vi	Micro farming system	:	Rainfed medium land
vii	Technology for Testing	:	Use of new generation molecules and combination insecticides for leaf folder and YSB management
viii	Existing Practice	:	Foliar spray with (Chlorpyrifos + Cypermethrin) 1 l/ha @ or Profenophos @ 1l/ha
ix	Objective(s)	:	To develop knowledge and skill on management of leaf folder and YSB in rice using new generation insecticides
x	Treatments	:	
	Farmers Practice (FP)	:	Foliar spray with (Chlorpyrifos + Cypermethrin) 1 l/ha @ or Profenophos @ 1l/ha
	Technology option-I (TO-I)	:	Foliar spray of Flubendiamide 20% WG @ 125 g/ha at the vegetative phase and at flowering stage
	Technology option-II (TO-II)	:	Foliar spray with Tetraniliprole 20SC @ 250 ml/ha at 25, 45 and 65 DAT
	Technology option-III (TO-III)	:	Soil application with (Cartap hydrochloride 7.5% + Emeactin benzoate 0.25% G) @ 7.5 kg/ha twice at 30 DAT and PI stage
xi	Critical Inputs	:	Flubendiamide 20% WG, Tetraniliprole 20SC, (Cartap hydrochloride 7.5% + Emeactin benzoate 0.25% G)
xii	Unit Size	:	1 ha
xiii	No of Replications	:	7
xiv	Unit Cost (₹)	:	3,500
xv	Total Cost (₹)	:	24,500
xvi	Monitoring Indicator	:	No of egg mass per hill, EBT/hill, WEH/sq mt
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	:	TO-I: DEPT. OF ENTO. OUAT 2023 TO-II: AICRP ON RICE, CHIPLIMA-2023 TO-III: RRTTS, RANITAL-2023

OFT: 8		
i	Season	: Rabi 2025-26
ii	Title of the OFT (25OPP01R)	: Assessment of management practices against pod borer complex in greengram
iii	Thematic Area	: IPM
iv	Problem diagnosed	: Yield reduction due to infestation of pod borer complex
v	Production system	: Rice- pulse cropping system
vi	Micro farming system	: Rainfed medium land
vii	Technology for Testing	: Use of botanicals, bird perches and new generation pesticides for management of
viii	Existing Practice	: To develop knowledge and skill on management of pod borer complex in greengram
ix	Objective(s)	: To develop knowledge and skill on management of pod borer complex in greengram
x	Treatments	:
	Farmers Practice (FP)	: Foliar spray with (Chloropyriphos+ Cypermrthrin) @ 1L/ ha
	Technology option-I (TO-I)	: Installation of bird perches @ 50 nos./ha, Foliar spray of Eamectin benzoate 5SG @ 200g/ha at 50% flowering stage, Need based spray of Indoxacarb 14.5SC @ 150ml/ha at pod development stage (Source: National Pulse Research Centre, Tamil Nadu, 2023)
	Technology option-II (TO-II)	: Foliar spray of neem oil 1500PPM @3ml/lit at 30 days after sowing (DAS) followed by Flubendiamide 39.35% SC 200 ml/ha at 45 DAS (Source: OUAT, 2018)
xi	Critical Inputs	: Eamectin benzoate 5SG, Indoxacarb 14.5SC, neem oil 1500PPM, Flubendiamide 39.35% SC
xii	Unit Size	: 2 ha
xiii	No of Replications	: 07
xiv	Unit Cost (₹)	: 3,500
xv	Total Cost (₹)	: 24,500
xvi	Monitoring Indicator	: No. of damaged pods/plant, no. of different spp. of larvae per plant, No. of webbings/plant
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	: TO1: National Pulse Research Centre, Tamil Nadu, 2023 TO2: OUAT, 2018

OFT: 9			
i	Season	:	Round the year
ii	Title of the OFT (24OAS02)	:	Assessment of moringa leaf meal and cowpea leaf supplements on production performance of colour birds
iii	Thematic Area	:	Feed supplement
iv	Problem diagnosed	:	Opportunity for cost reduction, increase in egg production, FCR in coloured layer bird
v	Production system	:	Poultry
vi	Micro farming system	:	Backyard poultry
vii	Technology for Testing	:	Opportunity for feed cost reduction, increase in egg production and FCR in coloured layer bird
viii	Existing Practice	:	Farmers using commercial feed available in the market
ix	Objective(s)	:	To assess moringa leaf meal and cowpea leaf supplements on performance of colour birds
x	Treatments	:	
	Farmers Practice (FP)	:	Commercial feed (125 g/hen/day)
	Technology option-I (TO-I)	:	Commercial feed (125 g/hen/day) + 0.5% <i>Moringa</i> leaf meal
	Technology option-II (TO-II)	:	Layer ration @ 75g/hen/day with cowpea leaves @ 75 g/hen/day
xi	Critical Inputs	:	Moringa leaf meal, cowpea leaves
xii	Unit Size	:	10
xiii	No of Replications	:	10
xiv	Unit Cost (₹)	:	Rs. 150/-
xv	Total Cost (₹)	:	Rs. 15000/-
xvi	Monitoring Indicator	:	Egg production, egg weight, FCR in coloured layer bird
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	:	ICAR- CCARI, Goa-2028

OFT: 10			
i	Season	:	Rabi, 2025-26
ii	Title of the OFT (25OFS01K)	:	Assessment of growth performance of Sea bass in poly culture with IMC in shrimp pond
iii	Thematic Area	:	Production and management
iv	Problem diagnosed	:	Non utilization of shrimp pond after harvesting of shrimp
v	Production system	:	Pond based
vi	Micro farming system	:	Pond based, irrigated low land low saline
vii	Technology for Testing	:	Growth performance of Sea bass in poly culture with IMC in shrimp pond
viii	Existing Practice	:	Underutilization of shrimp pond after the harvest or IMC only
ix	Objective(s)	:	To assess growth performance of Sea bass in poly culture with IMC in shrimp pond
x	Treatments	:	
	Farmers Practice (FP)	:	Underutilization of shrimp pond after the harvest or IMC only
	Technology option-I (TO-I)	:	IMC with additional Stocking of sea bass seed (10%) - CIBA, 2017
	Technology option-II (TO-II)	:	IMC with additional Stocking of GIFT Tilapia (10%)- CIBA, 2017
	Technology option-III (TO-III)	:	IMC with additional Stocking of sea bass (5%) + GIFT Tilapia (5%) - KAU, 2016
xi	Critical Inputs	:	Fingerlings of Sea bass and GIFT Tilapia
xii	Unit Size	:	0.2 ha
xiii	No of Replications	:	7
xiv	Unit Cost (₹)	:	2500
xv	Total Cost (₹)	:	17500
xvi	Monitoring Indicator	:	SGR, ABW (harvest), Yield (q/ha), BC ratio
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	:	CIBA, Chennai

OFT: 11			
i	Season	:	Kharif, 2025
ii	Title of the OFT (23OFS05Y)	:	Assessment on integrated management of Argulosis in fish
iii	Thematic Area	:	Disease management
iv	Problem diagnosed	:	Mortality of fish and low production due to Argulus infestation
v	Production system	:	Pond based
vi	Micro farming system	:	Pond based
vii	Technology for Testing	:	Different anti-ectoparasitic formulations for control of Anchor worm and carp lice
viii	Existing Practice	:	Cypermethrin 10% EC / Deltamethrin 2.8% EC @ 0.01 ppm
ix	Objective(s)	:	To control Argulus infestation in fish pond
x	Treatments	:	
	Farmers Practice (FP)	:	Cypermethrin 10% EC / Deltamethrin 2.8% EC @ 0.01 ppm
	Technology option-I (TO-I)	:	Ivermectin 2 % w/w in fish pond @ 250 ppm and feed to fishes for 4-5 days
	Technology option-II (TO-II)	:	CIFRI-Argcure (TANDAV) @ 40 ml/acre-m/dose in 3 doses in weekly intervals
xi	Critical Inputs	:	Ivermectin and CIFRI-Argcure (TANDAV)
xii	Unit Size	:	0.2 ha
xiii	No of Replications	:	7
xiv	Unit Cost (₹)	:	1800
xv	Total Cost (₹)	:	12600
xvi	Monitoring Indicator	:	Disease incidence (%), Mortality (%), SGR, ABW (Harvest), BC ratio
xvii	Source of Technology (ICAR/ AICRP/ SAU/ Other, please specify)	:	ICAR-CIFA ICAR-CIFRI

10. List of Projects to be implemented by funding from other sources (other than KVK fund)

Sl. No.	Name of the project	Fund expected (Rs.)
1	MIDH	25,00,000
2	PHC	25,00,000

11. No. of success stories proposed to be developed with their tentative titles: 4

12. Scientific Advisory Committee

Date of SAC meeting held during 2024-25	Proposed date during 2025-26
13.11.2024	10.12.2025

13. Soil and water testing

Details	No. of Samples	No. of Farmers									No. of Villages	No. of SHC distributed
		SC		ST		Other		Total				
		M	F	M	F	M	F	M	F	T		
Soil Samples	600									300	25	2000
Water Samples	200									150	60	-
Other (Please specify)												
Total	1200									450	85	2000

14. Fund requirement and expenditure (₹)*

Heads	Expenditure (last year) (₹) up to 31.03.2025	Expected fund requirement (₹)
POL, Stationeries	3,20,000	4,00,000
Training	2,40,000	3,00,000
FLD	1,20,000	1,50,000
OFT	1,20,000	1,50,000
SCSP	10,00,000	15,00,000
Library	10,000	50,000
T.E	1,50,000	2,50,000
HRD	30,000	50,000
Equipment		9,50,000
Furniture & Fixture		6,00,000
Total	19,90,000	44,00,000

* Any additional requirement may be suitably justified.
